Nope that was everything I knew of. Thank you for clarifying.

That sounds good. I'll look for a final graphic from you by Tuesday then?

Hi Suzie,

Yes Ron and I spoke, the only issue I heard with the first graphic was the color of the bins in the lower left corner. I took those concerns back to Dylan and Trina and the consensus was that we couldn't take the graphic that literal. If a local government wants to use the graphic and that is the barrier, we can get them the artwork and they can print a modified version.

Was there additional feedback? Ron did suggest sending to the education work group which I will do after we get the trash container fixed as I mentioned on the call today.

We also want to circle back on the Infographic #2 – after seeing the flow chart from the measurement group we are not seeing the conflict with moving forward with this infographic at this time.

Thanks,  
Randy

**Subject:** Infographic image files for 1-pager

Hi Randy,

Thanks for letting us share the graphic earlier on the workgroup call. I was wondering if EPA will have a chance to provide any comments, or if perhaps you've already talked through them with Ron? I think we had a couple of other thoughts to provide, if that was still possible.

Either way, could you send me the final graphics file as soon as the infographic is complete? We are working with our contractors on the 1-pager and to include it on the back it would be best to have the eps file. Ideally for printing and to give the contractors time to make any adjustments I need it by Tuesday 11/5.

Thanks,

Suzie Boxman, Ph.D.
